Twinkling Universe: A Journey of Wonder

Ananya
IX A

In the vast expanse of space, a cosmic show,
Stars twinkle and dance, with secrets to bestow.
Our satellites and probes explore with might,
Yet the universe's enigmas stay out of sight.

Think of black holes as cosmic vacuum cleaners,
Sweeping in all, like celestial gatekeepers.
Math and physics are tools we employ,
To decipher the universe's secrets, oh, what joy!
Strings, like tiny threads, weave the cosmic scene,
Multiverses, like parallel dreams, we've never seen.

Inflation and expansion, like cosmic dough,
The universe's puzzles, in awe we shall know.
Life and intelligence, gems in the cosmic night,
Ignite our curiosity, filling us with light.

In the universe's embrace, we all take part,
Seeking to understand its mysteries, with a hopeful heart.

Way to get peace

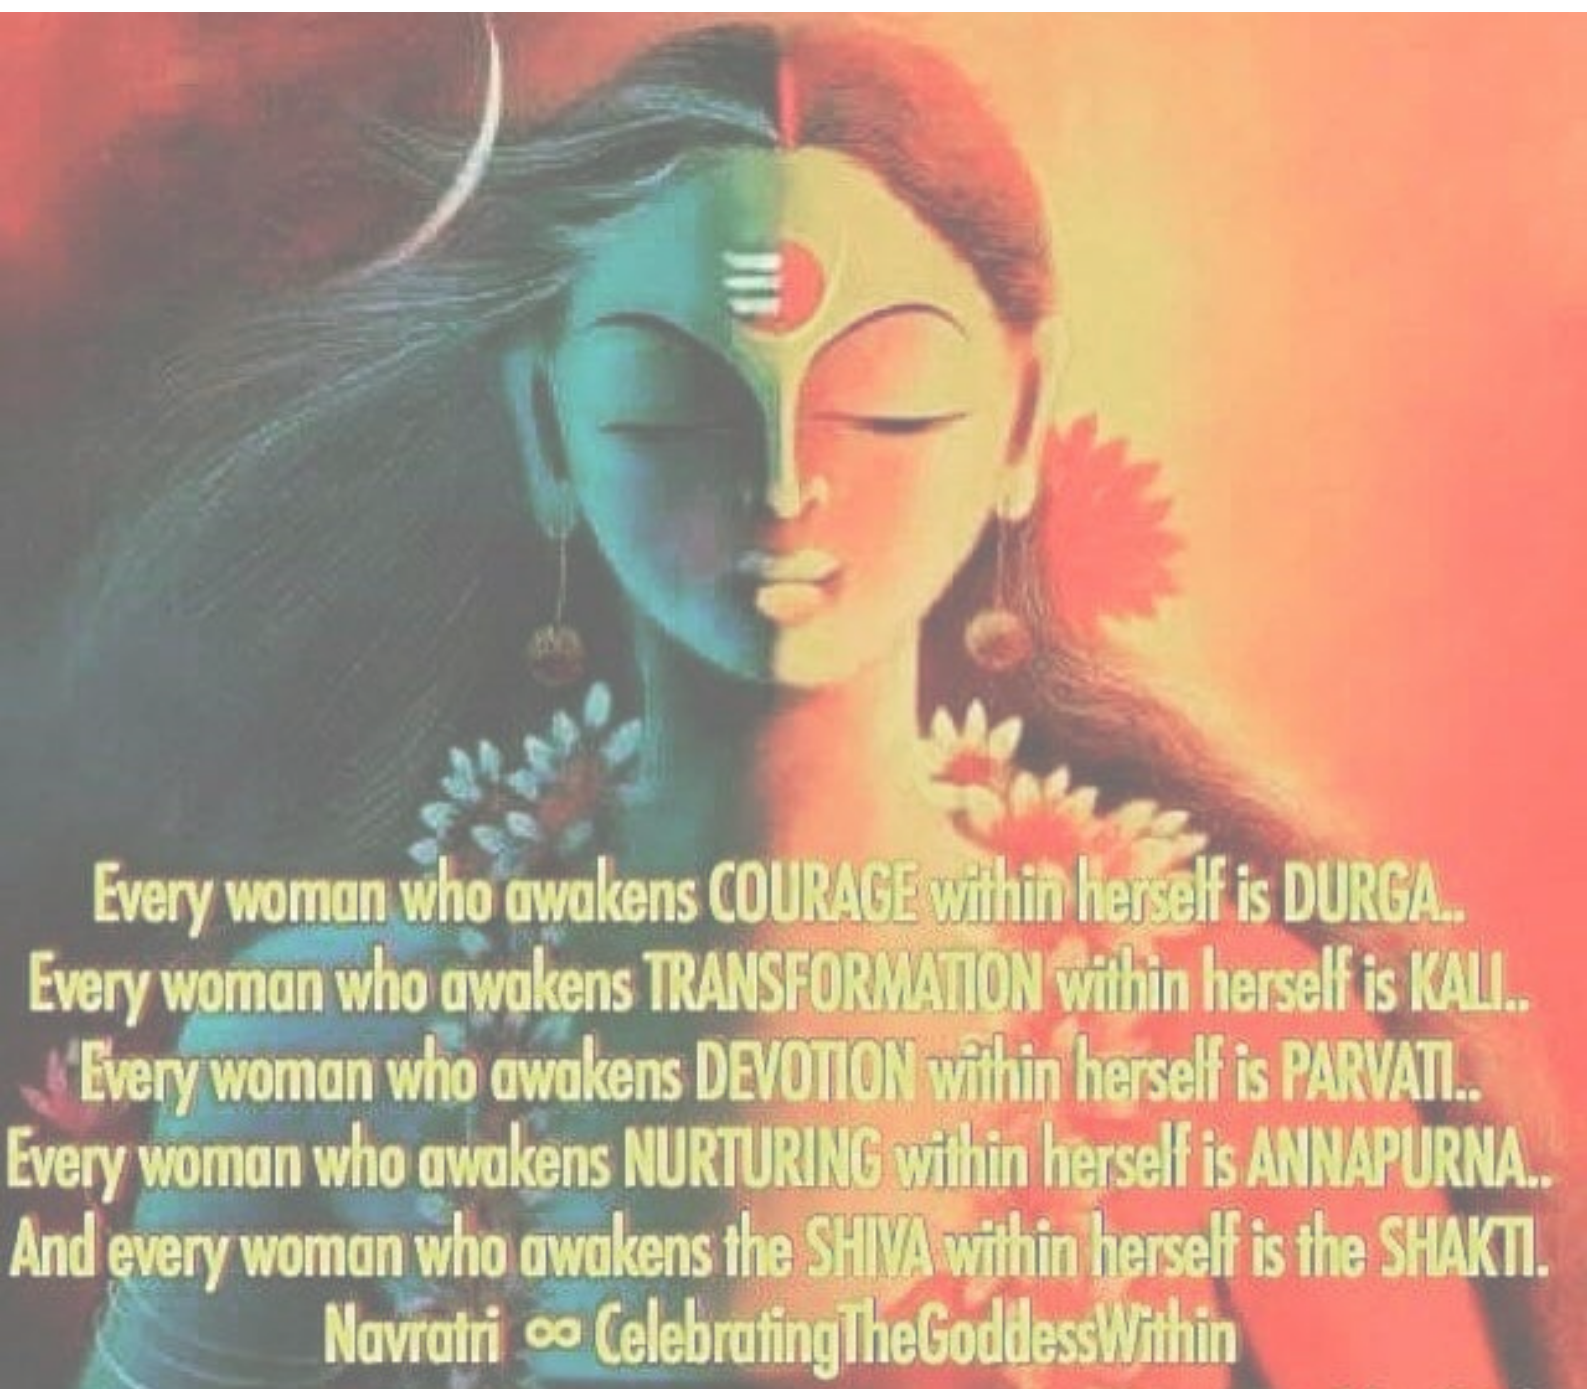

**Muhammad Jubair Hossain
(IX A)**

Without any hesitation, begin your journey of the day with meditation.
Sit yourself at a place, where there is solace.

Better to meditate under a tree, as at that place the air is free.
Try to inhale maximum air and exhale out negativity without any fear.

When your body gets enough oxygen, then slowly your brain will become serene.
Don't think about past or future events, only focus on your breathing at that moment.

Whenever I find myself diverting from my destination, I perform meditation.
After meditation whenever I open my eyes,
I feel some extraordinary power in my whole body.

Every woman who awakens COURAGE within herself is DURGA..
Every woman who awakens TRANSFORMATION within herself is KALI..
Every woman who awakens DEVOTION within herself is PARVATI..
Every woman who awakens NURTURING within herself is ANNAPURNA..
And every woman who awakens the SHIVA within herself is the SHAKTI..
